Founded in 1950 in Milan, Npi is today a reference for the operators of the plumbing, heating and household appliances field as well. In 2014 NPI Italia has become part of the Neoperl Group, a global company that offers very innovative solutions regarding drinking water for the plumbing industry, water and energy saving products worldwide.

Products

Npi Italia manufacture flexible braided hoses for water, gas and gas oil passage. The range is completed by metal hoses for wheating applications and Classica Neoperl products for sanitary and heating applications as well. Inliners used for the production of flexible braided hoses are made of: EPDM, NBR, Pex, Silicone, Tpsiv and thermoplastic material. Production is located in Italy, in Monza and Soncino.
